# AWACH AWACH GARANG

Software Engineering Student | Aspiring Software Developer

Email: awachgarang276@gmail.com | Phone: +211929400878 | Juba., South Sudan

## PROFESSIONAL PROFILE

Software Engineering undergraduate at Addis Ababa Science and Technology University (AASTU), building a foundation in programming, problem-solving, object-oriented programming, and web development. Learns through practical projects and developing skills in Java, C++, Python, and web technologies. Interested in creating useful, maintainable software andstrengthening core engineering fundamentals.

## EDUCATION

### BSc in Software Engineering

*Addis Ababa Science and Technology University (AASTU) | 2024 – Present*

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Java, C++, Python (currently developing) |
| **Web development** | HTML, CSS, JavaScript (learning and project practice) |
| **Tools** | Visual Studio Code, IntelliJ IDEA, Git, GitHub, Maven |
| **Database** | SQLite and SQL fundamentals |
| **Foundations** | Object-oriented programming, programming logic, basic data structures and algorithms |

## SELECTED PROJECTS

### Personal Portfolio Website

Developing a personal website with HTML and related web technologies to introduce myself and present selected work.

### Calculator and Programming Exercises

Practising programming fundamentals, conditional logic, loops, functions, and problem-solving through small projects.

### Library Management Project

Exploring how a simple application can organize and manage library-related information.

### Java Banking Application — Learning Project

Practising object-oriented design and exploring validation, data persistence, and transaction-history concepts.

## AREAS OF INTEREST

Software development, backend engineering, databases, cybersecurity, and artificial intelligence.

## ADDITIONAL INFORMATION

Open to learning opportunities, collaborative projects, and opportunities to develop practical software engineering experience.
